# Gleneagle State School Cyber Safety
TO WATCH OR NOT TO WATCH?

The internet is full of all kinds of information. Sometimes when we search for one thing on the internet, something else may pop up by accident. If you see something on the internet that makes you feel uncomfortable, then tell an adult immediately. Here are some tips of what to do:

Glenny's Safety Tips

1

Make sure an adult you trust is nearby before you get on the internet.

2

Don't give your personal details like school name, your photo to anyone on the internet.

3

Never meet someone you met online in real life. It can be dangerous.

4

Tell an adult if you see upsetting language, nasty pictures of if you are being cyber-bullied.

5

Be very careful with what you post on the internet, because it will remain on the internet forever.
